

U.S.S.N. 10/695,058

-5-

GKNG 1182 PUS

REMARKS

Applicants have amended claim 1 to correct the term "a first angle" and "a second angle" to place the claim in a better condition for allowance.

According to the Office Action, the application contains seven species of the claimed invention comprising the following:

- Species I shown in Figure 1;
- Species II shown in Figure 2;
- Species III shown in Figures 3 & 8;
- Species IV shown in Figure 4;
- Species V shown in Figure 5;
- Species VI shown in Figure 6; and
- Species VII shown in Figure 7.

Applicants elect Species II shown in Figure 2 and claims 1-18 for prosecution.

Applicant reserves the right to add the non-elected claims upon the allowance of a generic claim containing the same general inventive concept as the non-elected claims. As noted in the Office Action, claim 1 is generic.

The Examiner is invited to telephone the Applicants' undersigned attorney, Robert P. Renke at (248) 223-9500 if any unresolved matters remain with respect to this Response.

Respectfully submitted,

ARTZ & ARTZ, P.C.
